READ, REFLECT.

TRUTH IS SELF-EVIDENT. gg- In the country so subject as this to sudden changes in tee temperature of the atmosphere, is of the very greatest importance that a strict watch be constantly kept upon the very seat of life—the region of the stomach and bowels. It is there the Creator has placed the VITEL PRINCIPLES of our existence; and it is through them that the human frame continu and it is through them that the human frame continu-ally renews and renovates itself from the natural losses it sustains by the very action and re-action of the life principle. The stomach and bowels may there fore be called the grand regulators of the body's health. They sound the alarm when any thing infectious has been absorbed—they become affected even when the most remote members of the body have suswhen the most remote members of the body have sus-tained injury. There sympathy with every ill that can befall each and all of the corporeal agents, is as fixed and steady as it is prompt and extensive. It is only by proper and timely attention being at all timess and in all seasons, paid to those MAIN SPRINGS OF EXISTENCE, the stomach and bowels, so that they may be supported in their regular functions, that the changes of temperature are rendered less affecting, and a state of almost uninterrupted health can be se-

Although the causes which produce and foster disase in the human body are very numerous, yet the ef-ect is invariably the same, namely—IMPURITY OF HE BLOOD—and whatever medicine will carry off acse numors whith have produced this contamination of the blood must of necessity, restore the healthy condition of the body, and the surest safeguard against protracted infirmity and premature decay.

It is needless to recapitulate here, all that has from Whooping cough, Scald Head.

me to time been adduced to prove the efficacy of Brandreth's Vegetable Universal Pills, ong and successful experiment has convinced even as most sceptical, that it is the only Medicine calcuated for the certain cure and prevention of disease, is thousands and tens of thousands have been restored o health and happiness under its feneficial auspices, who have been pronounced as incurable by physicians of the first standing, and in many cases when every other remedy had been resort d to in vain.

In all cases of pain and weakness, whether it be chronic or recent whether it be deafness or pain in the side, whether it arises from constitutional or some ather cause—whether it be from internal or external njury, the disease is always sure to be eradicated by njury, the disease is always sure to be eradicated by sersevering in the use of these Pills. Their safety in all the various stages of existence—from helpless infancy to old age—has long been subject of especial commendation and wonder—and the fact that the application of VEGETABLE PURGATIVES is unattended by the least inconvenience, and that no parficular attention is required at the time that the Pills are taken, either as regards diet or action, constitutes of itself one of the most important benefits ever be of it self one of the most important benefits ever be-

stowed on mankind. The great business of "Purging" in times of sick-iess is beginning to be properly appreciated, and ex-ensively understood. Common Sense (that unerring uide, which not only the arts of selfish practitioners can mislead,) has found that it is much more convenient to take an occasional dose of Pills, and thereby ensure UNINTERRUPTED HEALTH, than submit to being ble I. blistered or salivated, with the certainty that if Death do not immediately follow, months and perhaps years of unuterable sufferings will be entailed; and that the only individual profited by the

treatment is the Doctor. It is also well worthy of consideration, that the principle of purging with Brandreth's Pills removes nothing but the useless and decayed particles from the body—the morbid and corrupt humors of the blood which generally impede the functions of the blood which generally impede the functions of the liver when they settle upon that organ—produce rheumasm when they settle upon the muscles—gout when ney settle upon the nerves—consumption when they settle upon the lungs; costiveness when they settle upon the intestines—apoplexy, paralysis, and all the train of melancholy disorders so fatal to the sufferer,

when these settle upon the lining of the blood vessels. The depravity of the humors is also the immediate case!! We believe this is the gentleman's own descause of intermittent fevers and dysentery—as nothing cription as near as possible, and there is no axaggerais required but the contact or contagious miasma, to

produce bilious, yellow, scarlet, and the like kind of fevers, as dysentery and diarrhoea.

It must, therefore appear self-evident that purging the foul humors from the body is the only True and Effective means of curing and preventing these complaints, and every other form of disease; for as it requires the tempest and the tornado to bring a out a state of purity in the ocean when its waters have been stagnant, so will it require repeated evacuations by the bowels, before the blood can be relieved of its accumulated impurities, and Nature left free to restore LINIMENT externally. ANY Y. Herald Jan. 26 1841. every organ to its proper healthy action. But very even when this has been done it is impossible for those who take little exercise to enjoy perfect health unless they occasionally make use of vegetable purgative medicine; for the conduits of the blood are there, eby kept free from those impurities which would prevent its steady current ministering health-morbid h mors are prevented from becoming mixed with it, an nature is thus assisted through the means and outlines

which she had provided for herself.

The CHINESE Blood Pills—so called because they work upon and cleanse the Blood—are the standard remedy.
